

# CIFRI-ARGCURE®

## Basic features

- Light brown free flowing liquid
- Density 1.3 g/mL at 25°C
- Available in 100 mL, 500 mL, 1L and 5 L quantity
- Shelf life 2 years from the date of manufacture

## Product Description

- This innovation is meant for managing Argulosis in fin fishes
- This product results better in Argulus parasite in low doses of application
- More than 85% cases the *Argulus* infection eradicated after second dose (40-60mL/acre meter) of this formulation

## Advantages

- Low dose of application
- Less toxic to fish
- Effective against Argulus juveniles
- No effect on phytoplankton
- Environmentally safe

## Application Instruction

- Dose: 40 mL / acre meter depth
- Mix the liquid in 40 L of water and apply at the pond uniformly
- Apply 3 times at interval of 7 days
